

## **Christina's world Photoshop activity 25 points-**

The goal of this activity is quickly get you working with four aspects of Adobe Photoshop 1.) Layers 2.) filters 3.) layer blending modes (found on the layers pallet) 4.) color adjustment tools.

For this assignment you will be starting with a white outline of the painting Christina's world. The painting has some very strong compositional elements such as use of negative space / scale / isolation / and texture.

You are to find images on Google and create a new Christina's world while keeping the main compositional elements intact. To achieve full credit you must meet all of the following criteria:

- 1.) You must use at least 5 different images.
- 2.) You must use a minimum of 5 different filters
- 3.) You must use a minimum of 3 layer blending modes
- 4.) You must maintain the compositional integrity of the piece (i.e. use of negative space / isolation / texture etc)
- 5.) You must use 5 different color adjustments
- 6.) You must use the Layer Mask effect at least once.

Record the different filters / layer blending modes / color adjustments you used on a Microsoft word document. When you submit the assignment for grading you will include this information in the comments field (as shown in class).

When submitting the assignment for grading don't forget to type your name in this format LAST, FIRST.
